

Parent Guide: Space – Astronauts (Day 2 of 4)

Astronaut Glove, Astronaut Assembly, Slo-Mo Machine

1

Astronaut Glove

Astronaut's gloves are some of the most important equipment they have. They have to be able to fix them in space if something should go wrong. Figure out how to save a broken glove by trial and error problem solving using some or all of the items below (or items like these you think may work even better).

Supplies Needed:

- masking tape
- scotch tape
- duct tape
- packing tape
- bandaids
- thick waterproof glove (dish gloves work well)
- water
- sink or bowl

2

Astronaut Assembly (source: letsdosomethingcrafty.com)

Create an astronaut and give it style all your own!

Supplies Needed:

- white cardstock (large rectangle, 4 skinny ovals, large circle)
- black cardstock (smaller circle)
- markers
- felt
- glue
- hole puncher / string (optional)

3

Slo-Mo Machine (source: Koo Koo Kangaroo via YouTube)

A fun, active dance that gets your kiddo into the mindset of a no-gravity slow motion environment. Visit the link on our website and get moving – but not too fast (see what we did there?)!
