## My Head In the Clouds

On a partly or mostly cloudy day, take a blanket to a grassy (dry) area to lay down and look up (or just peek out your window if the weather is cold)!

What kinds of clouds are in your world today? What shapes, colors, and types of clouds do you see? Do the clouds look like anything - how about a flower, a dragon, a bird, or a person? What can you imagine with your head in the clouds?
