

Parent Guide: Environment / Bugs, Bugs, Bugs!

Butterfly Life Cycle Study, Recycled Art Insect, Bug Hunt & Hotel

1

Butterfly Life Cycle Study

Butterflies go through an amazing transformation to become the beautiful creatures we see flying and floating around our environments! Study the stages to learn more. Take it one step further by sculpting each stage.

Supplies Needed:

- printable from website
- scissors
- glue
- playdough or modeling clay

Join us on our Facebook page for instructions!

2

Recycled Art Insect

Make an insect all your own, using up-cycled materials from your home.

Supplies Needed:

- recycled materials (magazines, cardboard, leftover string/twine, plastic, etc...)
- scissors
- glue
- markers, crayons, or paint

Join us on our Facebook page for instructions!

Bug Hunt & Hotel

On a walk, or in your backyard look for bugs. Where do bugs live? Where DON'T bugs live? Take your observations and create a bug hotel - use items from around your house and yard. Make it as inviting as you can based on what you've learned about bugs. Check back on your hotel daily to see if anyone has moved in! If not, what can you change about your hotel to make it more inviting?
